

Clear Administrative Credential Program

The Platinum Standard among California induction programs

ACSA is proud to serve new leaders in the longest running coaching-based Clear Administrative Services Credential program in the state. Through targeted coaching and timely and ongoing professional development, our program participants build capacity to develop positive and collaborative school cultures. Our program is designed to support and accelerate school leader practice to positively impact student learning.

The new Clear Induction Standards and California Commission on Teacher Credentialing-approved programs that align with them are the only way to clear the Administrative Services Credential. As part of the new standards, all new administrators must enroll in a two year CTC-approved clear induction program within one year of first day on the job. Credentialing candidates who come to us know they will be getting exactly what they need.

The ACSA Clear Administrative Credential Program is now accepting applications for the Fall Cohort.

Benefit from...

- 40 hours per year of individualized, on-site leadership coaching
- A highly trained, skilled, and successful Certified Leadership Coach
- 20 hours of individualized professional development opportunities
- Cohort based collaboration and connectivity with new administrators throughout California
- Collaborative and supportive system for developing your induction plan and action steps
