THE NATIONAL AVERAGE BY 2020 AND TO THE AVERAGE
OF THE TOP 10 STATES BY 2025.**

California is the home of innovation and opportunity — we've never been content with average. To meet the needs of 6.2 million public school students and prepare them for an increasingly competitive and complex world, we simply must do more. We must secure Full and Fair Funding for public schools to provide every California student with a high-quality education and the resources needed for success in college, career, and civic life.

We, the undersigned, call upon the State Legislature to **raise funding for California public schools to the national average** by 2020 and to the average of the top 10 states by 2025.
